Choose your material— suggest two different fabrics. All seams 1/4"

Cut out pattern from material

Cut interfacing for each piece (one hat only) the interfacing will be 1/2" smaller than pattern
Iron the interfacing on to one side of the hat only.

Pin & sew crown sides together

Pin & sew Brim together. Note you may want to include a tag on the crown side between seams

Press the seams open on body & brim pieces to reduce bulk.

Pin & sew body pieces to circle (crown top)

Make sure wrong sides are facing out

Tuck one hat into the other- wrong sides are facing out. Leave a 4" gap for turning on the brim.

Pin & Sew around the outer edge of the brim

Cut tiny notches around the outer edge of the brim to prevent bulk. Don't cut into the stitching.

Turn the hat inside out through the 4" gap & shape your hat.

Press the gap area shut then iron all the way around the brim

Top stitch around this outer brim. Some people like to top stitch all the way around to the crown.
